**[Docket No. FAA-2017-0388; Airspace Docket No. 17-AGL-13]**

**Proposed Amendment of Class E Airspace; Medford, WI and Waupaca, WI**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to modify Class E airspace extending up to 700 feet above the surface at Taylor County Airport, Medford, WI and Waupaca Municipal Airport, Waupaca, WI, to accommodate new standard instrument approach procedures (SIAPS) for instrument flight rules (IFR) operations at these airports. This action is necessary due to the decommissioning of the Medford and Waupaca non directional radio beacons (NDB), and cancellation of NDB approaches. This action would enhance the safety and management of IFR operations at these airports.

**DATES:** Comments must be received on or before **[INSERT DATE 45 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

**SUPPLEMENTARY INFORMATION:**

**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend controlled airspace in Class E to ensure the safety of IFR operations at Taylor

County and Waupaca Municipal airports.

### **Comments Invited**

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers (FAA Docket No. FAA-2017-0388 and Airspace Docket No. 17-AGL-13) and be submitted in triplicate to DOT Docket Operations (see “ADDRESSES” section for address and phone number.) You may also submit comments through the Internet at <http://www.regulations.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket No. FAA-2017- 0388/Airspace Docket No. 17-AGL-13.” The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerning this rulemaking will be filed in the docket.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the "ADDRESSES" section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX, 76177.

#### **Availability and Summary of Documents Proposed for Incorporation by Reference**

This document proposes to amend FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

#### **The Proposal**

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying Class E airspace extending upward from 700 feet above the surface at Taylor County Airport in Medford WI. The Agency proposes to retain the current Class E airspace within a 6.8-mile radius of the airport and to remove the segment of airspace within 2.7 miles each side of the 162° bearing from the airport extending from the 6.8-mile radius to 7 miles southeast of the airport due to the decommissioning of the Medford NDB and cancellation of the NDB approach.

The agency also proposes to modify the Class E airspace extending upward from 700 feet above the surface at Waupaca Municipal Airport, Waupaca, WI. The agency proposes to retain the current Class E airspace within a 6.4-mile radius of the airport and to remove the segment within 2.7 miles each side of the 118° bearing from the airport, extending from the 6.4-mile radius area to 7 miles southeast of the airport due to the decommissioning of the Waupaca NDB and cancellation of the NDB approach. This proposal would enhance the safety and management of the SIAPs for IFR operations at these airports.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11A, dated August 3, 2016, and effective September 15, 2016, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

### **Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

## **Environmental Review**

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.

## **List of Subjects in 14 CFR Part 71**

Airspace, Incorporation by reference, Navigation (air).

## **The Proposed Amendment**

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

### **PART 71 - DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS**

1. The authority citation for 14 CFR part 71 continues to read as follows:
